Description:

- The smoking cabinet is made of polished stainless steel sheet. This material gives the smoker a beautiful appearance and meets high hygiene standards.
- One device makes possible cold smoking * and hot smoking. Simple operation and always professional results with perfect smoke flavor.
- **New TIMER control panel for our Borniak smokers, with which you can set the working time of the electric heating element and separately the working time of the smoke generator and the dryer.**
- Electronic control panel for precise temperature control (maximum temperature up to 150°C) guarantees low operating costs.
- 150 liters capacity with 7 levels carrying up to 20 kg of meat or smoked products.
- The smoker is very efficient and energy-saving thanks to a special wall insulation technique with silicone sealing and magnetic closing.
- The interior of the smoker is made of food-safe stainless steel.
- Particularly easy to clean thanks to stainless steel drip tray for fat and water bowl to catch the ash.
- With the flap of the chimney the smoke density is easily regulated as appropriate.
- Constant and optimal smoke production for up to 8 hours without refilling and reheating with low operating costs.
- Borniak chips are produced without chemical additives and preservatives.
- Four adjustable feets (optionally available wheels for the smoker).

*cold smoke adapter sold separately.
